

# There is a **fundamental** problem with the healthcare supply chain.

**800+**

Back orders per day for the average health system.

**50%**

Caregivers reported procedure affecting supply issues.

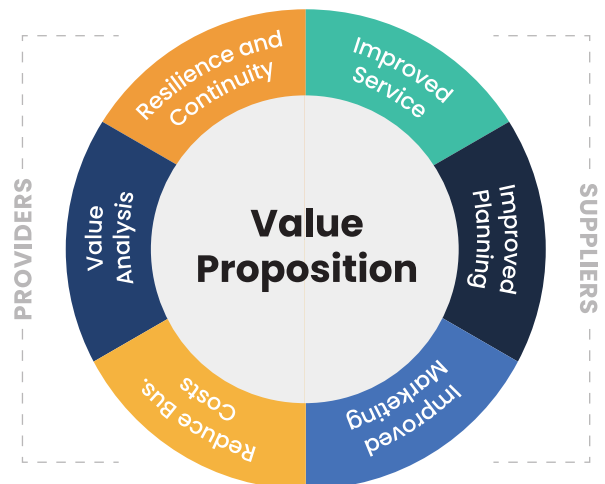

**\$10M+**

Cost of managing a non-resilient supply chain.

## THE SOLUTION

### Data Collaboration and Improved Transparency Through Peer Supply

Peer Supply has created the industry's first supply chain data cloud that connects providers, suppliers, and third parties to share and consume the vital supply data they need to keep patients healthy and save lives through a single trusted and streamlined platform.

## Our Team

**RAELYN WILSON**  
Founder & Chief Executive Officer

**JOHN BASS**  
President

**JENNIFER CHAVEZ**  
Director of Product & Community

**JAKE MILLER**  
Engineering Advisor

## What Makes Us Different

- Industry Neutral
